

8 VILLAS CORSEREY

CATEGORY: Architecture/Interior Design/ Multidwellings units

LOCATION : Corserey (CH)

PROGRAM : Residential area with 8 semi-detached houses

ASSIGNMENT : Preliminary, final and executive project

CHRONOLOGY : 2013-in progress, WORK IN PROGRESS

PROJECT TEAM: SWeeT architecture, Luca Reverso Sargentin

PHOTO AND IMAGE CREDITS: /

PROJECT DATA:

Surface area: 3467.00 m²

Gross floor area: 834.00 m²

Volume: 2652.00 m³

IT_texto

Un budget limitato, superfici minime, facilità e rapidità costruttiva. Ogni centimetro è importante, ogni ambiente è pensato per dare il massimo dell'abitabilità col minimo spazio. Le grandi aperture dilatano la percezione delle superfici e allargano gli orizzonti. 8 moduli abitabili si alternano a spazi esterni funzionali (copertura veicoli e deposito) e di svago (giardino privato e terrazza esterna) per creare un piccolo quartiere a misura d'uomo.

EN_text

A limited budget, minimal surfaces, a simple and fast construction. Every single centimeter is important, each room is designed to give the largest habitable area in the smallest space. Large windows dilate the space perception and widen the horizons. 8 habitable modules alternate with functional (carport and storage) and leisure (private garden and outdoor terrace) outdoor spaces to create a small people-oriented neighborhood.
